ASME B30.9

Drawing inspiration from our best-selling 4389 backpack, the 4390 tool bag is designed for hardworking technicians who frequently navigate rough terrain. Built to withstand tough conditions, it offers a durable solution while still being compact enough to carry personal items, small equipment, a laptop, and even a lunch box.

- **Dimensions (open):** 13 x 7.9 x 18.3 in (L x W x H)
- **Dimensions (closed):** 13 x 7.9 x 18.3 in (L x W x H)
- **Lifting height:** 25.6 in
- **Material (Orange):** 0.75 mm Heavy tarpaulin
- **Material (Black):** D1800\*900 PVC flat-coated polyester

- The backpack is crafted from durable tarpaulin, making it water-repellent against rain and splashes.
- It features detachable shoulder straps, with a dedicated compartment for securely storing the straps when the bag is being hoisted.
- To ensure the zippers remain closed during lifting, the bag includes three carabiners.
- A small transparent pocket, attached with velcro, is located on the side — ideal for name tags or similar.
- Reflective material is strategically placed around the bag to enhance visibility.
- The three main compartments are padded for extra protection.
- Inside, 11 smaller compartments of varying sizes help organize your belongings efficiently.
- A dedicated, padded laptop compartment adds extra functionality.
- The shoulder straps are also padded for comfort and can be adjusted to suit your needs.
- For secure hoisting, the lifting strap is made from high-quality polyester webbing.
- The bag's bottom is constructed from molded PE, providing increased durability against rough surfaces and allowing the bag to stand upright naturally.
