## 4453 USA / Square thermo lifting bag

39.6 gal

110 LBS

11 LBS

5 UNITS

THERMOS

Color options:

4453 is one of EMG's most distinctive tool bags, combining the functionality of a classic lifting bag with the added benefit of a thermal compartment. This makes it perfect for transporting hot or cold items to remote locations like ships and wind turbines.

- **Dimensions (open):** 23.6 x 13.8 x 29.9 in (L x W x H)
  - **Dimensions (closed):** 23.6 x 13.8 x 29.9 in (L x W x H)
  - **Lifting height:** 33.5 in
  - **Material (main):** D1800\*900 PVC flat-coated polyester
  - **Material (webbing):** 50 mm polyester
- Note: This bag features black webbing slings, not blue.
  - It is equipped with a double Velcro closure system to ensure secure containment.
  - A transparent, A4-sized pocket is located on the front for easy identification or labeling.
  - Side-mounted handles facilitate easy handling and transport.
  - For added convenience, a small polyester strap is positioned at the corner of the Velcro opening, allowing for quick access even when wearing heavy gloves.
  - A solid plastic plate inside the bag ensures even weight distribution.
  - The hard bottom is constructed from durable Polypropylene Log Plastic, helping the bag maintain its shape and extend its lifespan.
  - Additionally, the bottom is replaceable and can be easily swapped out when needed.

This model complies to the relevant parts of the following standards:

- EN 1492-1
- ISO 21898
- ASME B30.9
